

# Worship Schedule

## SCHEDULING MADE EASY

Worship Schedule keeps things clear and uncluttered. Worship leaders can easily schedule musicians, vocalists, tech teams, and other volunteers across multiple services—all without seeing ministries they don't oversee.

### Volunteer Scheduling & Management

Assign volunteers and team members to roles (worship band, sound, media, etc.), schedule them for single or multiple services, and see availability to avoid conflicts.

### Notifications & Responses

Once scheduled, team members receive email and text notifications about their assignments and can accept/decline or set their availability.

### Everything in One Place

Songs, notes, files, rehearsal tracks, and service details are all centralized. Your team can access what they need instantly from their phone or computer – anytime, anywhere.
